

PAAVAI COLLEGE OF ENGINEERING

Dear Parents and Students,

Greetings from Paavai.

I am so happy to meet you again through this Newsletter 2011 – 12 which contains the brief note about the activities done in the said academic year. At the same time, I wish to share with you a few important issues with respect to education. Standing on the sharp edge of economic revolution and liberalization, we have many questions to get answered with regard to the educational system prevailing and being followed up till recently. Eminent educationalists often

raise common questions like 'Can education be a commodity?' and 'Should we redefine the meaning of education to find out a way to bring out the reforms?' These questions really make us rethink about our educational system prevailing at present.

Our country lives through different ages. India can give 'solace of soul' to the rest of the world. But, we undermine ourselves without carrying over much of our tradition and heritage. Instead of upholding the legacy of our own principles, we slowly tend to convince ourselves to ignore the role of the real teachers and our proven teaching - learning process which we have been following from our ancient times. We start westernizing the entire educational system in the name of technology, reforms and modernization which failed to bring harmony among the student fraternity resulting in anarchy, heightened stress, social unrest etc.,

Hence, we need to rethink again that while we start enjoying the technological advancements, we should not forget the basics of our own traditional pattern of educational process, and teacher- student relationship.

At Paavai, we have thoroughly understood the importance of balancing the tradition and technology, and a lot of innovations are being made in the teaching-learning methodology knowing fully well that quality is not a matter of chance but a matter of choice.

As usual, Paavai, being a student-centric organization, concentrates on all the possible ways to make the educational reforms in a very safe way so that it will uphold the strong roots of valued tradition and culture of our country and at the same time it is always ahead in implementing the technological advancements in a highly commendable manner for the benefits of students by and large.

A good number of activities in the process of providing value-based education to the students took place during the academic year 2011 – 12 and before you go through the same in the forthcoming pages, once again, I seek your continuous support and encouragement as in the past.

PAAVAI - VISION

PAAVAI CULTURE

We challenge the changes
 We seek beyond the best
 Work shall be taken, not to be given
 We produce value added professionals
 We lead to Prosper, Excel and Conquer.

PAAVAI - MANTRA

Own Our Words and Deeds

STUDENTS HAVE STRONG FAITH ON THE FOLLOWING PRINCIPLES OF PAAVAI

We, the students of Paavai Educational Institutions, are very much aware that we are prepared to cherish and uphold the paavai principles such as Refined Culture and Rich Values. We are taught a kind of education on the Paavai Campus which is based on the modern and humanistic thoughts which enable us to promote the peace of mankind in general.

The Paavai Campus, where we receive the creative energy to translate our lofty dreams into meaningful and constructive actions, inspires us into a realization that it is our responsibility to take care of the welfare and security of the brothers and sisters with whom we study here.

We whole - heartedly believe that we would recognise and respect the love, affection, care and concern of our parents and teachers, and also follow their well-meant guidance and disciplining instructions and come up in life with flying colours.

- This pledge is taken as an oath by the students on every occasion in Paavai

WE BELIEVE...

The young sage of India, Swamy Vivekananda, has established the greatness of Indian culture and the identity and the sovereignty of this Land of 'Vedha and Sathya' by addressing the participants from the core of his heart as "Brothers! and Sisters!!" in the world Religious Conference, held at Chicago, America.

In the same manner, Paavai strongly emphasises the friendship with fraternal affinity with the goal of attaining knowledge mingled with pure affection and without any expectation and servility.

On Paavai premises, a girl student will address her co-girl student as 'Sister' and her co-boy student as 'Brother' and similarly a boy student will address his co-boy student as 'Brother' and his co-girl student as 'Sister'. This practice is already in vogue, cent percent on the Paavai Campus.
