CHAIRMAN'S MESSAGE

Dear parents and students!

I deem it to be a matter of immense pleasure to address you. It is indeed very inspiring to witness that the college has carved a name for itself in the academic scenario of the region. Education is the most powerful tool to bring desirable changes in student's personality and produce the positive changes in our society. It is the guiding torch which enables you to move from darkness to brightness. I believe that the newsletter of Paavai College of Engineering will serve as a window through which the complete profile of the academic and co-curricular activities, achievements and progress made during the academic year 2018-2019 can be viewed.

I take this opportunity to urge you all to focus on the overall development of the learners. Students should always have education laced with morality and ethics. "Honesty is the first chapter in the book of Wisdom" hence, truthfulness and integrity should be inculcated in each and every phase. I strongly believe that, there can be no better way to drive and improve our nation's prosperity and socio-economic well-being than through our education system. I also consider that, technocrats are the key to continued financially viable and technological advancement of our country.

It gives me immense pleasure, to affirm that our foremost venture is to create an ambience for nurturing innovation, creativity and excellence in our students by preparing the young engineers and managers to confidently and competently face the challenges of intensifying competition by means of imparting high quality technical and managerial education coupled with appropriate training and wide exposure to the state-of-art practices. Our educational programmes lay emphasis on all round personality development and also in inculcating human values and professional ethics which help our students become more humane and socially lead a meaningful life.

In Paavai, the students are offered multi-faceted opportunities of participating in Intra-continental Summit which gives a extensive exchange of knowledge sharing. Students participated in a two-day International Convention, 'Indo-Taiwan Summit - Supporting Innovation and Research through Collaboration' for worldwide that outlined the future scopes of student-exchange programme through Indo-Taiwan relations. I am blissful to acknowledge and welcome Astra, a campus connect programme for students of different mettle to unleash their creativity, histrionics, aesthetics, fine arts, debating skills, team dynamics, leadership and so on. S. Tamilselvan, III Automobile and C.Lingakumar, III CSE has got first place in the A14 Special Category State Level Open Yogasana Championship held on 27th January 2019.

I believe that the foundation of Paavai is based on hard work, open communication, a strong emphasis on team work and a high level of responsibility. This visionary culture allows and emphasizes our wards not only to adopt the present day challenges but also nurtures individual responsibilities to the society and our nation at large. The service of Paavai in creating personally mature, professionally equipped and service-oriented graduates is really worth mentioning and here no compromise is made on teaching standards or discipline. These three things are the springboards on which Paavai operates.

I would also like to take this opportunity to extend my thanks to our academicians and the team. I also congratulate all those who, by their earnest and sincere efforts, are behind the success of Paavai.

Best wishes for the success and bright future.
